STROLLER COLLECTION 2011
created by Jette Joop

JETTE

Jette Joop

As a mother of two and as a designer, I have rigorous requirements for making my JETTE branded strollers meet lifestyle, safety, comfort, and fashion needs.

One key component of this mandate is my unique Memory Foam seat inserts. The material originates from aerospace technology and is engineered to conform to your child's body to maximize baby comfort, as well as to support and protect the head and neck. The designer in me also knows color enriches our lives. Therefore I can not only select a color to match my stroller, but can alternate other Memory

Foam inserts to match my mood, children's clothes, or just to keep a fresh insert while the other is being cleaned.

All stroller materials used are certified by ÖKOTEX and the canopies are equipped with built-in UV protection. These are just some of the ways I marry fashion with comfort and safety.

Lucky kids, happy parents!
Sincerely yours,

"Children are visible love for me."

Designer Jette Joop

Horn

The family-run Austrian company Horn, established 1948, is in its second generation of stroller manufacturing processes. Brothers Alfred Horn and Dr. Christian Horn have utilized their years of industry experience to partner with Jette Joop in creating the exciting new JETTE stroller collection.

MF^{plus} -CONCEPT

Memory Foam

Use Memory Foam technology to unite comfort and safety with a high sense of fashion flexibility: something for moms, dads and kids!

MATTRESS + INLAY

For pram body and carrycot

PADDING

Suitable for all pushchair and stroller models.

The MF+^{plus} accessory offers relaxing wellbeing to your baby from the infant stage onward. Thanks to the MF+^{plus} your child will enjoy optimal pressure relief that supports proper blood flow and perfect sleeping

positions. This highly adaptable foam can be modified to the needs of your child. It is also washable and meets all strict ÖKOTEX guidelines. The MF+^{plus} is recommended for use with each model. It consists

of padding, overlay and head protector, and is available in eight colors, (mattress in two colors), all of which can be combined in different ways to meet your own fashion aesthetics.

HEAD PROTECTOR

For all pushchair, stroller and buggy models

OVERLAY

For all pushchair, stroller and buggy models

MF^{plus} ACCESSORY

Memory Foam

JETTE strollers are available in **three carefully selected exterior colors**: Black, Milk White and Navy. These compliment perfectly with all of the **eight MF^{plus} fashion choices**: green, blue, pink, mud, orange, turquoise, white and black. When considering the mix-and-match options of the strollers, padding, overlays, and head protectors, there are an incredible 192 different color combination possibilities. Control your own fashion destiny!

PADDING

Recommended for all pushchair and stroller models. Available colors: green, blue, pink, mud, orange, turquoise, white and black.

MATTRESS + INLAY

Recommended for pram body and carrycot. Available colors black-white and white-white.

OVERLAY

Recommended for all pushchair, stroller and buggy models. Available colors: green, blue, pink, mud, orange, turquoise, white and black.

HEAD PROTECTOR

Recommended for all pushchair, stroller and buggy models. Available colors: green, blue, pink, mud, orange, turquoise, white and black.

JOEL

An urban COMBI pushchair complete with carrycot pram body and stroller seat.

- Complete with carrycot pram body only 12.6 kg.
- Stroller width only 60 cm.
- Modern look due to slim chassis.
- Telescopic handle height adjustment.
- Travel-system compatible
Available Maxi Cosi „Cabrio Fix“, „Pebble“ and Cybex „Aton“ infant car seat adapter for use as travel-system.

Weight: 12.2 kg (as stroller)
12.6 kg (as COMBI pushchair)

Handle height: adjustable (95 – 110 cm)

Internal seat dimension: 88 x 30 cm

Folded: 89 x 59.5 x 34.5 cm
(without carrycot pram body)

Stroller width: 60 cm

The model "JOEL" is the perfect COMBI pushchair with a carrycot pram body for the city. "JOEL" impresses with its profile and light alloy chassis (12.2 kg as stroller and 12.6 kg as COMBI pushchair complete with carrycot pram body). The possibility for use as travel-system is especially noteworthy. The lightweight 8 kg chassis makes handling a breeze. The handle can be adjusted to 3 levels and lengths (telescopic handle). The big and easy to access shopping basket makes "JOEL" the ideal shopping companion.

JASON

Highest quality paired with top innovation.

- Friendly compact-fold design due to retractable swivel-locking wheels.
- Specially engineered aluminum materials make this an extremely lightweight stroller. Only 16 kg with carrycot.
- Travel-system compatible Available Maxi Cosi "Cabrio Fix" and "Pebble" infant car seat adapter for use as travel-system.

Weight: 14 kg (as stroller)
16 kg (with carrycot pram body)

Handle height: adjustable (69 – 113 cm)

Internal seat dimension: 84 x 31 cm

Folded: 90.5 x 61 x 60 cm (with carrycot)

Stroller width: 61 cm

"JASON" is a classic COMBI pushchair with carrycot pram body and reversible handle. In addition to the tough frame and very small compact-fold design "JASON" is lightweight and extremely easy to handle. These features make "JASON" a great stroller for the city, the countryside, not to mention making it an ideal travel-system.

JASPER

The stylish luxury buggy – where design meets function.

- Reversible, removable seat.
- Newborn compatible with use of the optional available carrycot pram body.
- Travel-system compatible
Available Maxi Cosi "Cabrio Fix", "Pebble", Cybex "Aton", Recaro "Young Profi Plus" and Storchenmühle "Twin O+" infant car seat adapter for use as travel-system.

Weight: 9.5 kg (with stroller seat)
12.5 kg (with carrycot pram body, optional)

Handle height: rotating

Internal seat dimension: 89 x 31 cm

Folded: 104.5 x 32 x 43 cm

Stroller width: 53 cm

"JASPER" is a high-end telescopic buggy that is also compatible with an optionally available carrycot pram body. "JASPER" impresses with design and function. The reversible and removable seat makes this an incredibly versatile buggy. Its compact design makes it an ideal travel-system buggy as well.
